

The Black Walrus is an Amazon International Bestseller!

It was on the market for just under a month when *The Black Walrus* became an Amazon International Bestseller!

In late April, 2023, *The Black Walrus* became the #1 bestselling book in 13 different Amazon categories all over the world. These included the Children's Intermediate Readers, Children's Action and Adventure, and Children's Humor categories.

Thank you to my readers, family and friends, editor, critique group members, AuthorYOU members, and everyone else who made this possible.

In celebration of this baboon-spankingly momentous occasion, I've added a gold Amazon International Bestseller badge to the book's cover.

You can pick up a copy of *The Black Walrus* with this shiny, new badge here: bit.ly/blackwalrus. I'll also be selling this version at all signings, festivals, and other sale events.
